**There is always a risk when performing anesthesia on any animal. However, complications during and following anesthesia and surgical procedures can possibly be avoided if the Doctor is aware of any underlying illness. Ailments such as anemia, liver disorders, kidney malfunction, blood clotting disorders and infections may not be evident upon physical examination. Because these and other ailments may affect surgical results and outcome, we strongly recommend that all animals undergoing anesthetic and surgical procedures have a pre-anesthetic profile.**

The Profile consists of the following lab tests:

- \*Complete blood count
- \*Blood glucose
- \*ALP-Liver Test
- \*ALT-Liver Function
- \*BUN – Kidney Test
- \*CREAT – Kidney Test
- \*Total Serum Protein Test
- \*Albumin

**The Cost for the profile is \$65.00.** The cost of the profile is **NOT INCLUDED** in the fee quoted for your pet's surgery.

( ) **YES**, complete the blood work for my pet. I accept full responsibility for my decision.

( ) **NO**, do not complete the blood work for my pet.

**PROCEDURE TO BE PERFORMED \_\_\_\_\_**

**I authorize the veterinarian to extract teeth as needed during the dental procedure. ( ) YES ( ) NO**

I authorize and direct the veterinarians associated with Montevallo Animal Clinic to administer appropriate anesthesia, perform the above stated procedures and/or to do any other therapeutic procedure that their judgment may dictate to be advisable for the patient's well-being. I understand the risks and nature of the operation and/or procedures to be performed and no guarantee has been made concerning the result or cure. I hereby authorize and direct the veterinarians to provide such additional services for the patients that may deem reasonable and necessary including the performance of or the arrangement of the performance of histopathology services and the provision of radiology services. Because ALL ANESTHESIA AND SURGERY INVOLVE RISK, I further agree that the doctors and staff of performance of any of the before mentioned procedures.
